Potsdam, 24 February 2017 - On 30 January 2017 Elanix Biotechnologies AG (Frankfurt Stock Exchange: ELN, "Elanix", "Company") has resolved to implement a capital increase against cash contribution from authorized capital by up to 1,133,200 New Shares, offering an indirect subscription right to shareholders.

All 1,133,200 New Shares have been fully placed within the scope of the preemptive rights offering and a private placement. The capital increase was oversubscribed due to the high level of interest, hence subscriptions had to be re-allotted equally.

EUR 4.76 million which will be used to cover the operational expenses of the Company and the further development of marketing the Company's main product GynRepair(R), which is already available in Switzerland, within the European Union as of Q2 2017.
