About Elanix

Elanix develops and commercializes tissue regeneration products for acute wound care, dermatological and gynecological applications, and provides services in cell technologies. The company was founded in 2012 as a spin-out from the University Hospital of Lausanne (CHUV), Switzerland, to commercialize a patented human progenitor cell technology. Progenitor cells are fully differentiated yet immunologically neutral cells that are very potent inducers of tissue growth and healing.

Forward-looking statements

This publication may contain certain forward-looking statements concerning the Company and its business. Such statements involve certain risks, uncertainties and other factors which could cause the actual results, financial condition, performance or achievements of the Company to be materially different from those expressed or implied by such statements. Readers should therefore not place undue reliance on these statements, particularly not in connection with any contract or investment decision. The Company disclaims any obligation to update these forward-looking statements.
